

PERFORMANCE MEASURES FOR NEW ACCESS POINTS

CLINICAL PERFORMANCE MEASURES

Focus Area: Diabetes

Performance Measure	Proportion of adult patients with a diagnosis of Type I or Type II diabetes whose hemoglobin A1c (HbA1c) was greater than 9% at the time of the last reading in the measurement year.
Numerator Description	Number of adult patients whose most recent hemoglobin A1c level during the measurement year is greater than 9% among those patients included in the denominator.
Denominator Description	Number of adult patients aged 18 to 75 years as of December 31 of the measurement year with a diagnosis of Type I or Type II diabetes who have been seen in the clinic for medical visits at least twice during the reporting year and do not meet any of the exclusion criteria.

Focus Area: Cardiovascular Disease/Hypertension

Performance Measure	Proportion of adult patients with diagnosed hypertension whose blood pressure was less than 140/90 (adequate control) at the time of the last reading.
Numerator Description	Number of patients in the denominator whose last systolic blood pressure measurement was less than 140 mm Hg and whose last diastolic blood pressure was less than 90 mm Hg.
Denominator Description	All patients 18 to 85 years of age as of December 31 of the measurement year with a diagnosis of hypertension, and who were first diagnosed by the health center as hypertensive at some point before June 30 of the measurement year, and who have been seen for medical visits at least twice during the reporting year.

Focus Area: Cervical Cancer Screening

Performance Measure	Percentage of women 21-64 years of age who received one or more Pap tests to screen for cervical cancer.
Numerator Description	Number of female patients 24–64 years of age receiving one or more documented Pap tests during the measurement year or during the 2 calendar years prior to the measurement year among those women included in the denominator <i>OR</i> for women who were 30 years of age or older at the time of the test who choose to also have an HPV test performed simultaneously during the measurement year or during the 4 calendar years prior to the measurement year.
Denominator Description	Number of all female patients age 24–64 years of age during the measurement year who had at least one medical visit during the measurement year.

Focus Area: Prenatal Health	
Performance Measure	Proportion of prenatal care patients who entered treatment during their first trimester.
Numerator Description	Number of women entering prenatal care at the health center or with the referral provider during their first trimester.
Denominator Description	Total number of women seen for prenatal care during the year.
Focus Area: Perinatal Health/Birth Weight	
Performance Measure	Proportion of patients born to health center patients whose birth weight was <i>below</i> normal (less than 2,500 grams).
Numerator Description	Number of children born with a birth weight of under 2,500 grams.
Denominator Description	Number of children born.
Focus Area: Child Health/Immunization	
Performance Measure	Percentage of children with their 3rd birthday during the measurement year who are fully immunized before their 3rd birthday.
Numerator Description	Number of children among those included in the denominator who were fully immunized before their 3rd birthday. A child is fully immunized if s/he has been vaccinated or there is documented evidence of contraindication for the vaccine or a history of illness for ALL of the following: 4 DTP/DTaP, 3 IPV, 1 MMR, 3 Hib, 3 HepB, 1VZV (Varicella), and 4 Pneumococcal conjugate prior to her/his 3 rd birthday.
Denominator Description	Number of all children with at least one medical visit during the reporting period who had their 3rd birthday during the reporting period.
Focus Area: Oral Health/Dental Sealants	
Performance Measure	Percentage of children age 6-9 years at “elevated” risk who received a sealant on a permanent first molar tooth within the measurement year.
Numerator Description	Unduplicated number of children age 6-9 years at “elevated” risk who received a sealant on a permanent first molar tooth as a dental service during the measurement year.
Denominator Description	Unduplicated number of children age 6-9 years at “elevated” risk during the measurement year.

Focus Area: Weight Assessment and Counseling for Children and Adolescents

Performance Measure	Percentage of patients aged 2 until 17 who had evidence of BMI <i>percentile</i> documentation AND who had documentation of counseling for nutrition AND who had documentation of counseling for physical activity during the measurement year.
Numerator Description	Number of patients in the denominator who had their BMI percentile (not just BMI or height and weight) documented during the measurement year AND who had documentation of counseling for nutrition AND who had documentation of counseling for physical activity during the measurement year.
Denominator Description	Number of patients who were one year after their second birthday (i.e., were three years of age) through adolescents who were aged up to one year past their 16th birthday (i.e., up until they were 17) at some point during the measurement year who had at least one medical visit during the reporting year, and were seen by the health center for the first time prior to their 17th birthday.

Focus Area: Adult Weight Screening and Follow-Up

Performance Measure	Percentage of patients aged 18 and older with a documented BMI during the most recent visit or within the 6 months prior to that visit AND when the BMI is outside of normal parameters a follow-up plan is documented.
Numerator Description	Number of patients in the denominator who had their BMI (not just height and weight) documented during their most recent visit OR within 6 months of the most recent visit AND if the most recent BMI is outside of normal parameters, a follow-up plan is documented.
Denominator Description	Number of patients who were 18 years of age or older during the measurement year who had at least one medical visit during the reporting year.

Focus Area: Tobacco Use Screening and Cessation

Performance Measure	Percentage of patients age 18 years and older who were screened for tobacco use at least once during the measurement year or prior year AND who received cessation counseling intervention and/or pharmacotherapy if identified as a tobacco user.
Numerator Description	Number of patients in the denominator for whom documentation demonstrates that patients were queried about their tobacco use one or more times during their most recent visit OR within 24 months of the most recent visit and received tobacco cessation counseling intervention and/or pharmacotherapy if identified as a tobacco user.
Denominator Description	Number of patients who were 18 years of age or older during the reporting year seen after their 18 th birthday, with at least one medical visit during the measurement year, and with at least two medical visits ever.

Focus Area: Asthma – Pharmacological Therapy

Performance Measure	Percentage of patients aged 5 through 40 with a diagnosis of mild, moderate, or severe persistent asthma who received or were prescribed accepted pharmacologic therapy.
Numerator Description	Number of patients in the denominator who received a prescription for or were provided inhaled corticosteroid or an accepted alternative medication.
Denominator Description	Number of patients who were 5 through 40 years of age at some point during the measurement year who have been seen at least twice in the practice and who had at least one medical visit during the reporting year, who had an active diagnosis of persistent asthma.

Focus Area: Coronary Artery Disease (CAD): Lipid Therapy

Performance Measure	Percentage of patients aged 18 years and older with a diagnosis of coronary artery disease (CAD) who were prescribed a lipid-lowering therapy.
Numerator Description	Number of patients in the denominator who received a prescription for or were provided or were taking lipid lowering medications.
Denominator Description	Number of patients who were seen during the measurement year after their 18th birthday who had at least one medical visit during the reporting year with at least two medical visits ever, and who had an active diagnosis of coronary artery disease (CAD) including any diagnosis for myocardial infarction (MI) or who had cardiac surgery in the past.

Focus Area: Ischemic Vascular Disease (IVD): Aspirin Therapy

Performance Measure	Percentage of patients aged 18 years and older who were discharged alive for acute myocardial infarction (AMI) or coronary artery bypass graft (CABG) or percutaneous transluminal coronary angioplasty (PTCA) in the prior year OR who had a diagnosis of ischemic vascular disease (IVD) during the measurement year who had documentation of use of aspirin or another antithrombotic.
Numerator Description	Number of patients in the denominator who had documentation of aspirin or another anti-thrombotic medication being prescribed, dispensed or used.
Denominator Description	Number of patients who were aged 18 and older at some point during the measurement year who had at least one medical visit during the reporting year, who had an active diagnosis of ischemic vascular disease (IVD) during the current or prior year, OR had been discharged after AMI or CABG or PTCA in the prior year.

Focus Area: Colorectal Cancer Screening

Performance Measure	Percentage of patients age 50 to 75 years who had appropriate screening for colorectal cancer.
Numerator Description	Number of patients aged 51 through 74 with appropriate screening for colorectal cancer.
Denominator Description	Number of patients who were aged 51 through 74 at some point during the measurement year who had at least one medical visit during the reporting year.

Focus Area: HIV Linkage to Care	
Performance Measure	Percentage of newly diagnosed HIV patients who had a medical visit for HIV care within 90 days of first-ever HIV diagnosis.
Numerator Description	Number of patients in the denominator who had a medical visit for HIV care within 90 days of first-ever HIV diagnosis.
Denominator Description	Number of patients first diagnosed with HIV between October 1 of the prior year through September 30th of the current measurement year.
Focus Area: Depression Screening and Follow Up	
Performance Measure	Percentage of patients aged 12 years and older screened for clinical depression using an age appropriate standardized tool AND follow-up plan documented.
Numerator Description	Number of patients aged 12 and older who were 1) screened for depression with a standardized tool and if screened positive for depression, 2) had a follow-up plan documented.
Denominator Description	Number of patients who were aged 12 or older at some point during the measurement year and who had at least one medical visit during the reporting year.
FINANCIAL PERFORMANCE MEASURES	
Focus Area: Total Costs	
Performance Measure	Total Cost Per Patient
Numerator Description	Total accrued cost before donations and after allocation of overhead.
Denominator Description	Total unduplicated patients for the period from January 1 to December 31 of the calendar measurement year.
Focus Area: Medical Costs	
Performance Measure	Medical Cost Per Medical Visit
Numerator Description	Total accrued medical staff and medical other cost after allocation of overhead (excludes lab and x-ray cost).
Denominator Description	Non-nursing medical visits (excludes nursing (RN) and psychiatrist visits).
Focus Area: Grant Costs	
Performance Measure	Health Center Program Grant Cost Per Patient
Numerator Description	New Access Point funding request amount for Year 2 (the period from January 1, 2018 to December 31, 2018).
Denominator Description	New Access Point total projected unduplicated patients for Year 2 (the period from January 1, 2018 to December 31, 2018).
